

# THE DIRTY BIRD<sup>®</sup>

Thank you for purchasing **THE DIRTY BIRD<sup>®</sup> Septic Vent Concealer™**. You are just 3 steps away from converting that ugly air in-take pipe\* into an attractive pedestal with matching birdbath basin.

**\*Only for use with 4" AIRVAC<sup>®</sup> Air In-Take Systems**

Included Parts:

Basin

Pedestal

Required Tools:

Hand Saw

- 100% Rotomolded LDPE (Low Density Polyethylene)
- All Stainless Steel Hardware
- Fade Resistant (UV Stabilized)
- Limited Lifetime Warranty on Breaking and Chipping\*\*
- Recyclable
- Made in USA

Installs In **3** Easy Steps!

Cut at 22" above ground

- 1** Unpack contents. Make sure ground is fairly level at base of pipe. Cut pipe with saw at 22" above ground.

No more than 20 lbs.  
No more than 12" high

- 2** Slide the pedestal over top of the cut pipe. Push down until base is flush with the ground. Your air in-take is now fully functional! You can use it as a pedestal\* or proceed to the next step.

\*Do not place an item more than 20 lbs. or higher than 12 inches on top of pedestal.

- 3** Align threaded basin stem with hole on pedestal. Turn basin clockwise just until it stops. Your air in-take has been converted into a beautiful birdbath. Fill with water! Basin can be easily removed for periodic cleaning.

This model of The Dirty Bird<sup>®</sup> has been specifically designed to be used with AIRVAC<sup>®</sup> Air-Intake Systems. It is equipped with a 1/4" Stainless Steel mesh screen. The screen helps to protect from foreign objects obstruction your air in-take and does not require any maintenance. Remember, there are options when it comes to using The Dirty Bird<sup>®</sup>. It can be used as a birdbath, or a pedestal to hold your favorite potted plant, sundial, etc. Enjoy!

01/20

\*\*BS Design Corp. agrees to replace any product pedestal or basin which breaks or chips, other than due to external impact, for the life of the ownership of the product with original receipt presented at the time of warranty claim.
